

VersiCell[®] - Planter Box Drainage

VersiCell lightweight interlocking plastic drainage cells were specified for sub-surface drainage in planter boxes at Constitution Hill Retirement Village in Sydney

VersiCell drainage cells (left) may be interlocked in the same plane or at right angles.

The open surface design ensures rapid capture and transport of high water volumes.

1. VersiCell
2. Waterproof Membrane
3. Geotextile
4. Coarse sand
5. Growing Media

VersiCell drainage cells were interlocked, positioned on the waterproof membrane (left) and geotextile installed (below)

Soil mix was positioned on the geotextile (above) and landscape plants installed (right)

Ref: 0605
